cowise@gmail.com

1531 N Pierce St, #1110, Arlington, VA 22209

(703) 798-8622

*Portfolio located at: <http://cowise.info>; additional design, wireframe and code samples available upon request.*

## OBJECTIVE

To pursue a position in a fast paced creative environment that will allow me to grow my professional and personal talents, as well as learn new technologies and techniques.

## EDUCATION

### Purdue University

*December 2008* Computer Graphics Technology; Art & Design (Minor); Japanese (Minor)

## EXPERIENCE

### CARFAX

*UI/UX Designer July 2015 – Present*

- Works with a team of creative designers to craft deliverables for multiple projects with variable deadlines, while interfacing directly with product managers and consulting them on UI/UX direction of applications and websites
- Creative lead for the “myCARFAX” website and app, helping to spearhead a complete system redesign, which includes working to create a single unified style guide across all apps and websites
- Creates wireframes, high fidelity visual designs, CMS-driven microsites (WordPress) and working prototype pages using HTML/CSS/JS

### Leidos (Consultant)

*Senior UI/UX Designer February 2015 – July 2015 (6 month contract)*

- Reviews Use Case documents and constructs wireframes and digital designs for implementation into existing multi-portal system for Department of Transportation
- Works closely with front end development team to ensure that proposed designs are fluid and workable in the current development environment
- Takes approved wireframes and designs and partially implements them into the development environment using HTML, CSS and some Javascript (JQUERY, DOJO)
- Responsible for reviewing the previously implemented system features and analyzing them for user accessibility (which often includes suggesting and implementing changes to existing workflows)

## **Accelian, LLC and PasteGroup (References Available)**

*Senior UI/UX Designer & Developer March 2012 – January 2015*

- Responsible for the design and front-end development of UI elements for a “Mission Critical / Top Priority” (DHS ICE ACRIME) Government agency web application suite
- Meets with clients to discuss needs and wants, creates a design and then prototypes it into HTML/CSS/JavaScript to pass off to other developers
- Creates wireframes for prototyping and conversion into design/development assets
- Manages multiple deadlines and projects with varying levels of completion and complexity in an AGILE SCRUM environment
- Worked on assorted in-house projects (custom-built timekeeping application and blog, custom-built mobile navigation-tracking application)
- Responsible for creation of application style and branding and ensuring future updates adhere to said guidelines

## **Sayres and Associates (References Available)**

*Web Designer July 2009 – March 2012*

- Technical Lead for the company’s intranet & SharePoint initiative
- Interface with vendors to ensure SOW’s are maintained
- Maintain the corporate brand and identity
- Redesign corporate forms, templates and processes to better mesh with overall brand
- Miscellaneous design tasks (document design, process chart design, interface design, etc.)
- Maintain the company extranet and intranet
- Spearhead complete redesign of the company website
- Primary graphic support specialist for the DDG1000 Naval Contract
- Interfaced directly with high profile customers
- Created graphic assets with high demands and extremely quick turnaround times

## **MYnstrel, INC.**

*Principal Art Consultant July 2007 – July 2013*

- Lead graphic design consultant for the website <http://www.MYnstrel.com>
- Create all art and graphic assets used for MYnstrel, including composite images and skins
- Oversee any remaining outsourced graphic work to solidify the MYnstrel brand
- Chief UI/UX designer for the company website from inception to completion
- Learned several new technologies on the job in a self-teaching environment

## **Pikkle Design | Tokyo, Japan**

*Design Intern August 2007 – December 2007*

## **SKILLS**

- Proficient with the Microsoft Office Suite
- Proficient with the Adobe Creative Suite (highly proficient with Photoshop)
- Proficient with HTML, CSS, JavaScript (jQuery, jQuery UI, Bootstrap)
- Proficient with multiple tool suites and development environments (IBM RAD/WAS, STS, etc.)
- Experience with ActionScript, MySQL, PHP, ASP, JAVA, C++, XML, JSON, Grails, mongoDB
- JLPT-3 Certified (Japanese Language Proficiency Test)
- Branding and Identity Management
- Front-End Design and Development
- Web Design
- UI/UX Design and Development (Using rapid prototyping pipelines like Invision, etc.)
- Technical Liaison
- Extensive Customer-Facing Experience
- Experience with AGILE SCRUM
- Experience with most prototyping tools (Axure, Balsamiq Omnigraffle, Sketch, etc.)
- Proven past ability to learn new technologies “on the job” in a fast moving environment
